PROJECT / INTERNSHIP

HOTEL MANAGEMENT SYSTEM |SEP-2022 - NOV 2022 |

- A Hotel Management System is a Website designed to streamline the operations and management of a hotel or a chain of hotels.
- This system was designed to improve efficiency, customer satisfaction, and overall profitability for the hotel.
- The Hotel Management System Website has successfully revolutionized the way the hotel manages its operations.

DOCTORS APPOINTMENT SYSTEM | MAR-2023 - OCT 2023 |

- This system aims to streamline the appointment scheduling process, enhance patient experience, and optimize doctor-patient interactions.
- The implementation of a robust appointment booking system allows patients to schedule appointments with their preferred doctors at their convenience.
- The system dynamically updates the availability of doctors based on their schedules,
